

SUNFT

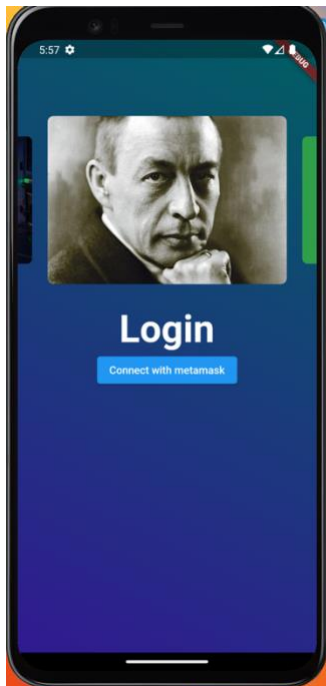

USER DOCUMENTATION

Welcome to SUNFT, the mobile app designed for university members to create, buy and sell NFTs. With SUNFT, you can turn your artwork into unique, digital assets that can be bought and sold on our platform.

Our aim is to provide a secure and user-friendly platform that allows university members to showcase their creativity, buy and sell NFTs, and connect with other members of the community. Whether you're an artist looking to showcase your work, or a collector looking to acquire unique pieces, SUNFT is the perfect platform for you.

In this documentation, we'll provide you with step-by-step instructions for using all the features of our application, including creating an account, buying and selling NFTs, setting up a profile, and more.

1. Welcome Page: This is welcome page of the application.

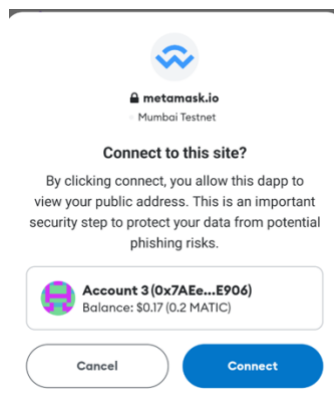

1. Click on the "Connect with Metamask" button on the first page of the application (See red arrow below).

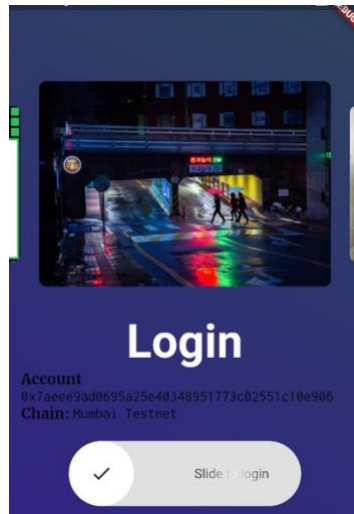

2. If your device does not have Metamask installed, the application will navigate you to the Google Play Store to download it. Once installed, you can return to the SUNFT application to connect your Metamask account.

3. If your device already has Metamask installed, the application will automatically remember your account from your address. You will be prompted to confirm the connection and needed to press connect button.

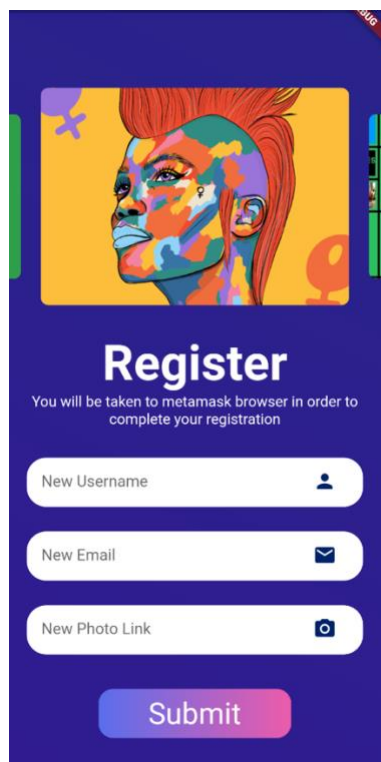

2.Login Page:

1. Once you have connected with Metamask, you will be redirected to the login page. To login to your SUNFT account, slide the bar to the right to login.

3.Register Page: If you haven't signed up for a SUNFT account yet, you will be directed to the registration page. To register, you will need to have sufficient funds in your wallet, which will vary depending on the volume of the network.

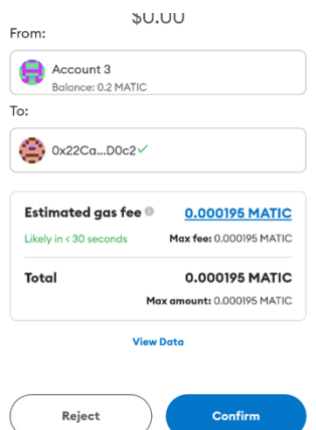

1.Enter your username.

2.Enter your email address.

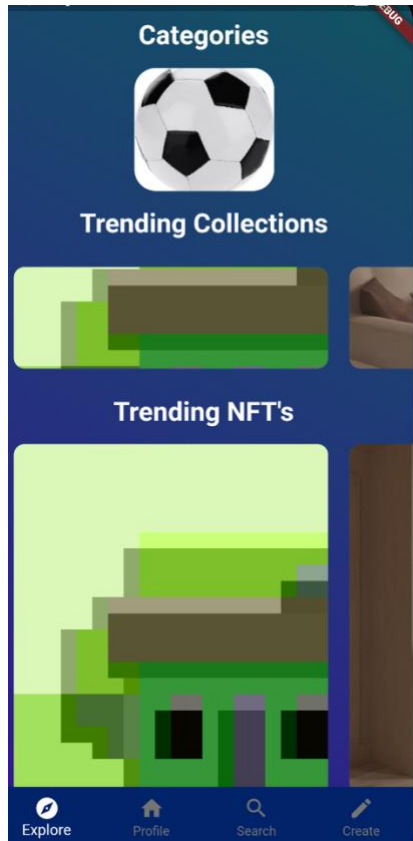

3.Enter/Paste the **url** of the image that you want to set as a profile picture.

4. Click submit button.

5. You will be directed to Metamask to confirm your registration by clicking the confirm button. After confirming, you will be directed to the **Login Page**(see 2.Login Page).

4. Main Page: Welcome to the main/explore page of SUNFT! Here you can browse through a variety of NFT categories and collections.

1. Once you've successfully logged in, you will be directed to the **main/explore** page. Here you can see the different NFT categories available to browse.

2. Click on a category to see the collections inside it. For example, if you click on "Art," you will see a variety of art collections to browse.

3. You can also browse trending collections by scrolling down to the "Trending Collections" section. Here you will find the most popular NFT collections of the moment. You can see different NFT's under this section

4. To view the details of a specific NFT, simply click on it. This will show you the current status of the NFT, such as whether it's on sale or not. If the NFT is on sale and you have sufficient funds, you can purchase it directly from the platform. If the NFT is one that you own and on sale, you can also cancel the sale if you choose to do so.

5. Profile Page: The profile page in SUNFT is your personal space to showcase your NFTs and connect with other users. Here's how to use it:

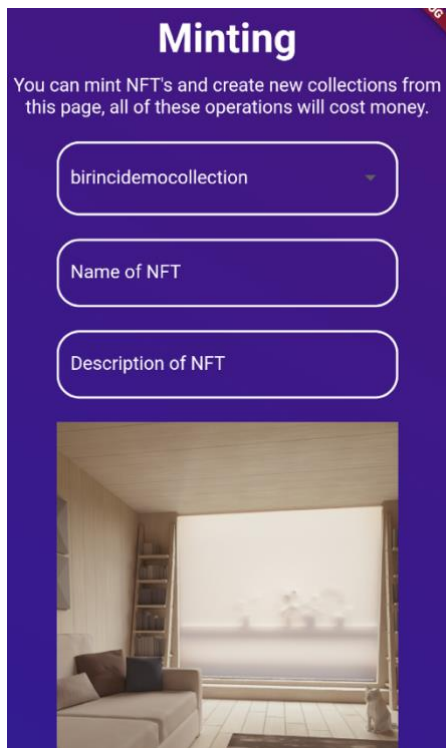

1. To access your profile page, click on the "Profile" icon in the bottom navigation bar.

2. On your profile page, you will see the photo that you uploaded during registration, as well as your name and address.

3. You can also see how many NFTs you have liked by looking at the "Liked NFTs" section.

4. If you scroll down, you will see your NFTs. This is where you can view, or sell your NFTs.

6. Create Page: You can create and mint your own NFT's and collections.

1.If you already have a collection, you can choose the collection that you want to add your NFT to. If you haven't created a collection yet, you can create a new one.

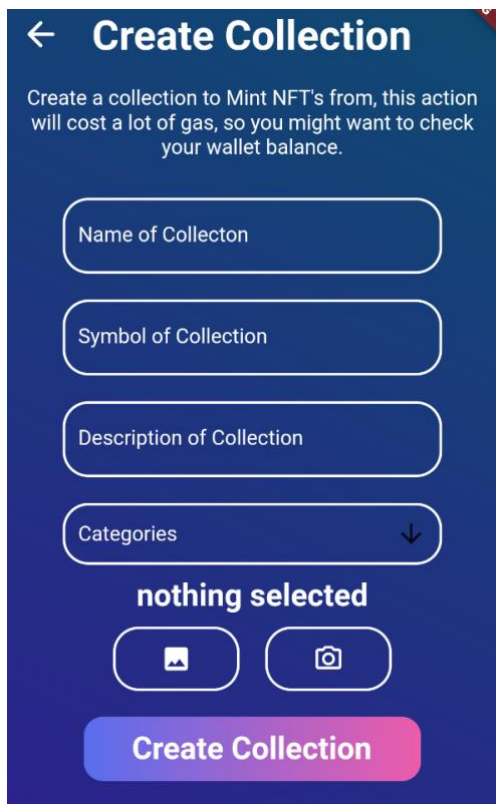

2.If you have not created a collection, or wanted to create new one you can click the collection in the first field, and click '+' symbol, it will direct you to **Create Collection Page** and you can create your collection here.(see 7. Create Collection).

3.Once you have chosen your collection, give your NFT a name and add a short description.

4.You can then take a picture of your NFT using your device's camera or choose a picture from your gallery. The picture will be used as the visual representation of your NFT.

5.After choosing the picture, you can then mint your NFT into the chosen collection.

7. Create Collection: You can create your own collection.

1.Write the name of your collection.

2.You can also choose a symbol for your collection.

3.Write a short description of your collection.

4. Choose one or more categories that best describe your collection.

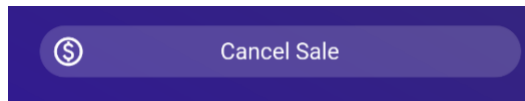

5.You can take a picture of your collection using your device's camera, or choose a picture from your gallery. This picture will be used as a visual representation of your NFT.

6.After choosing the picture, click the "Create Collection" button. This will direct you to Metamask, where you can confirm the creation of your new collection.

8. Cancel Sale: If for some reason you decide not to sell your NFT after minting it, you can easily cancel the sale by following these steps;

1.Go to your profile page and click on the NFT that you want to cancel the sale for.

2.On the NFT details page, click the "Cancel Sale" button.

3.This will direct you to Metamask, where you will need to confirm the transaction.

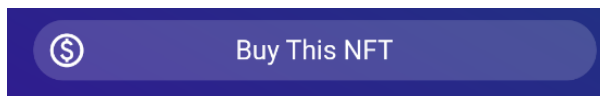

4.Once you confirm the cancellation, your NFT will be taken off sale and will no longer be available for purchase by other users.

7. Buy NFT:

1.Browse the NFTs on the main/explore page or on a user's profile page to find the NFT that you want to buy.

2.Once you've found an NFT that you want to buy, click on it to view the details of the NFT.

3.If the NFT is currently for sale, you will see a "Buy This NFT" button.Click on the "Buy This NFT" button.

4.This will direct you to MetaMask, where you will need to confirm the transaction.

5.To buy the NFT, you will need to have sufficient funds in your wallet.

6.Once the transaction is confirmed, the NFT will be transferred to your wallet,and you will become the owner of the NFT.
